College of Mechanical and Transportation Engineering

Mechanical Design, Manufacture, and Automation

You will become a high quality qualified petro-mechanical engineer, be able to independently engage in engineering design, conduct applied research, and production management in the field of mechanical engineering. You will acquire skills that are on demand in most petroleum companies, acquire skills required to be a leader in a design, production or research teams.

What you will learn in this program ?

Courses you'll take

Mechanics of Materials
Mechanical Design Basics
Control Engineering
Mechanical Drawing Engineering

Research areas

Oil and Natural Gas Machinery and Automation

Teaching languages:
Chinese

Tuition:
25000 RMB/year

Course start date:

September

Course duration:
Four Years

Required qualifications for applicants

1. Non-Chinese citizens, in good health

Applicants should be non-Chinese citizens. In the case of former Chinese citizens, they should have proof of having obtained a foreign citizenship for more than 4 years and with a valid passport.
