

# Geology

## What you will learn in this program

You will learn the basic theories, basic knowledge and basic skills of geology, and learn to apply geological theories, methods and techniques to solve practical problems such as basic geology, mineral resources, environmental geology and disaster geology on which humans depend for survival and sustainable development.

## Research areas

- Mineral Resources
- Environmental Geology

## Courses you'll take

- Introduction to Geophysics
- Geochemistry
- Geotectonics and Regional Geology
- Magmatic Rocks and Metamorphic Petrology
- Crystal Optics
- Crystallography and Mineralogy
- General Geology

## Application Requirements

1. Non-Chinese citizens, in good health  
Applicants should be non-Chinese citizens. In the case of former Chinese citizens, they should have proof of having obtained a foreign citizenship for more than 4 years and with a valid passport.
